

Developing leaders for tomorrow

Young IPWEA and IPENZ Engenerate Networking Event

Young IPWEA and IPENZ Engenerate would like to invite all young public works and engineering professionals to a joint Hamilton networking event

When: Thursday 27th August, 5.30pm

Where: AECOM - 121 Rostrevor St, Hamilton

Cost – Free

**Refreshments
Provided**

What: This is a great chance to meet and/or catch up with other young professionals in the public works and engineering sectors. Pizza and drinks will be provided and we will be joined by Jarrod Bates of the Hamilton City Alliance, Jarrod will be speaking on collaboration within the industry.

Who: All professionals younger than 35 that are involved with either public works (roads, waters, parks and reserves, land development, etc.) or engineering are welcome.

Why: Young IPWEA and IPENZ Engenerate plan to arrange networking events like this to facilitate networking of young public works and engineering professionals.

What is Young IPWEA?

Young IPWEA (or YIPWEA) is a new networking group of the Institute of Public Works Engineering Australasia. It has been formed to develop the next generation of leaders in our rapidly changing sector.

Jarrod Bates - Hamilton City Alliance

Jarrod is an Asset manager / Technical Engineer with more than 15 years' experience in the road construction industry with a primary emphasis on Asset Management and Design. Jarrod's passion is practical and tactical asset management, by identifying network or assets needs and applying cost effective fit-for-purpose treatments which deliver "whole of life" benefit to clients and their customers. Working on the Hamilton city alliance contract since its inception Jarrod has seen the benefits of collaboration between client, consultant, and contractor, resulting in a fully integrated high performing team.

Engenerate (or IPENZ Emerging Professionals) is a professional group aimed at engineers with less than 8 years' professional work experience. Engenerate works to help young engineers develop their professional careers by holding technical presentations, site visits and social networking events.
