

## **Gravel Road Asset Management – prioritising maintenance work**

**D Bremert<sup>1</sup>**

<sup>1</sup>Rockhampton Regional Council, Rockhampton, QLD

The question for most Councils is when do we undertake gravel road grading?

This is a major question for most Councils and it normally sits with the supervisor's vehicle.

This presentation is looking at ways to take the guesswork out of the decision making process and have a defensible position.

Our process have seen the development of the camera system from just a flood damage recorder to being used as a maintenance planner for Council.
