# Innovation

*What does it mean to you?*

Question the predictable  
*stand for innovation*  
change the landscape

reorganisation  
upheaval process  
renovation success restructuring  
departure continuing  
crucial modernism variation  
novelty  
newness add  
value  
change  
new  
modernisation  
devices  
unconventionality  
shift  
break methods  
alteration implemented  
innovation emphasis  
recasting organisation  
rearrangement  
revolution  
transformation

Innovation is an activity that is **new** and that **adds value** in response to a changing environment

# Reasons for Failure

- Inability to respond to new or changing circumstances
- Knowledge Management
- Innovation Management
- Understanding the relationship of these two elements
- Understanding the underlying factors

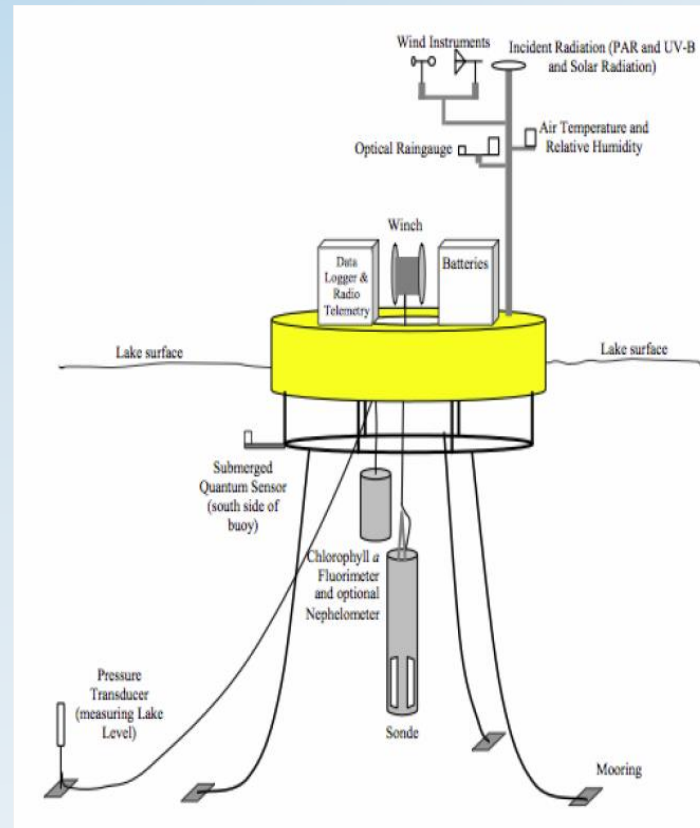

# Qualitative Case Study

Seqwater provided the data for a qualitative-based case study

—Interviews, documents, observations

—Water quality profiler

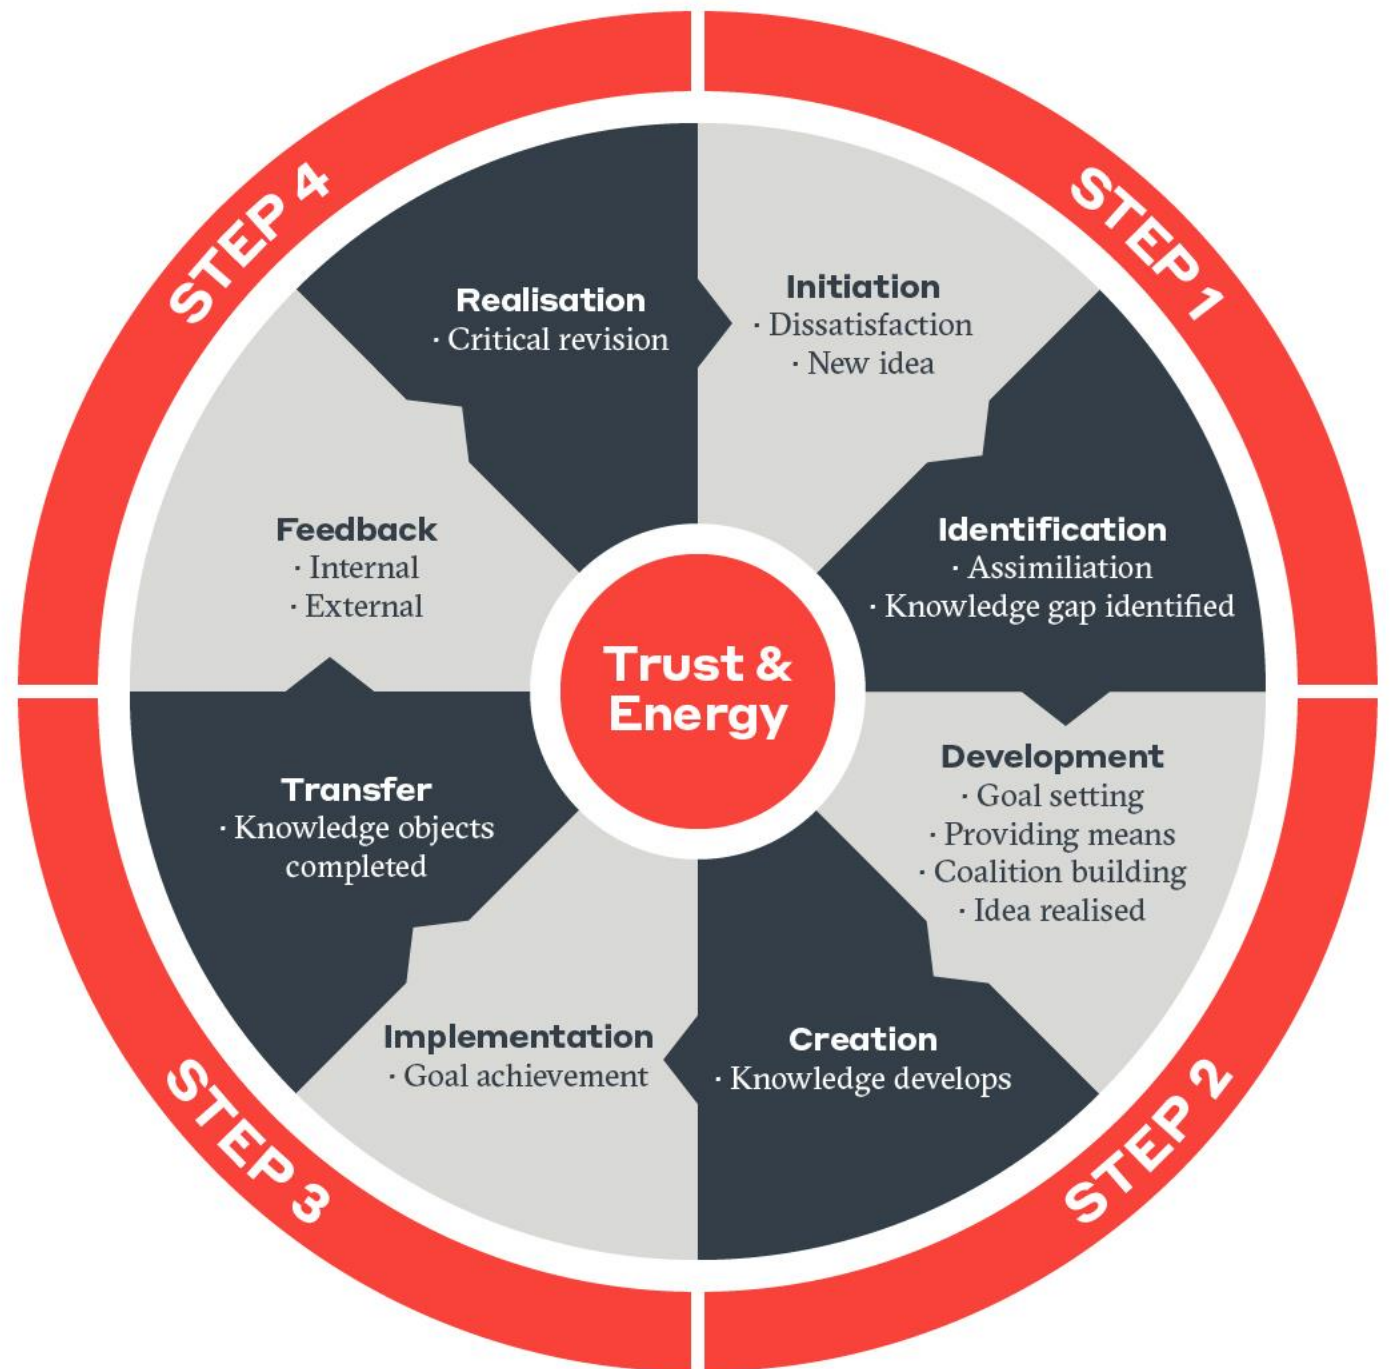

# Water Quality Profiler

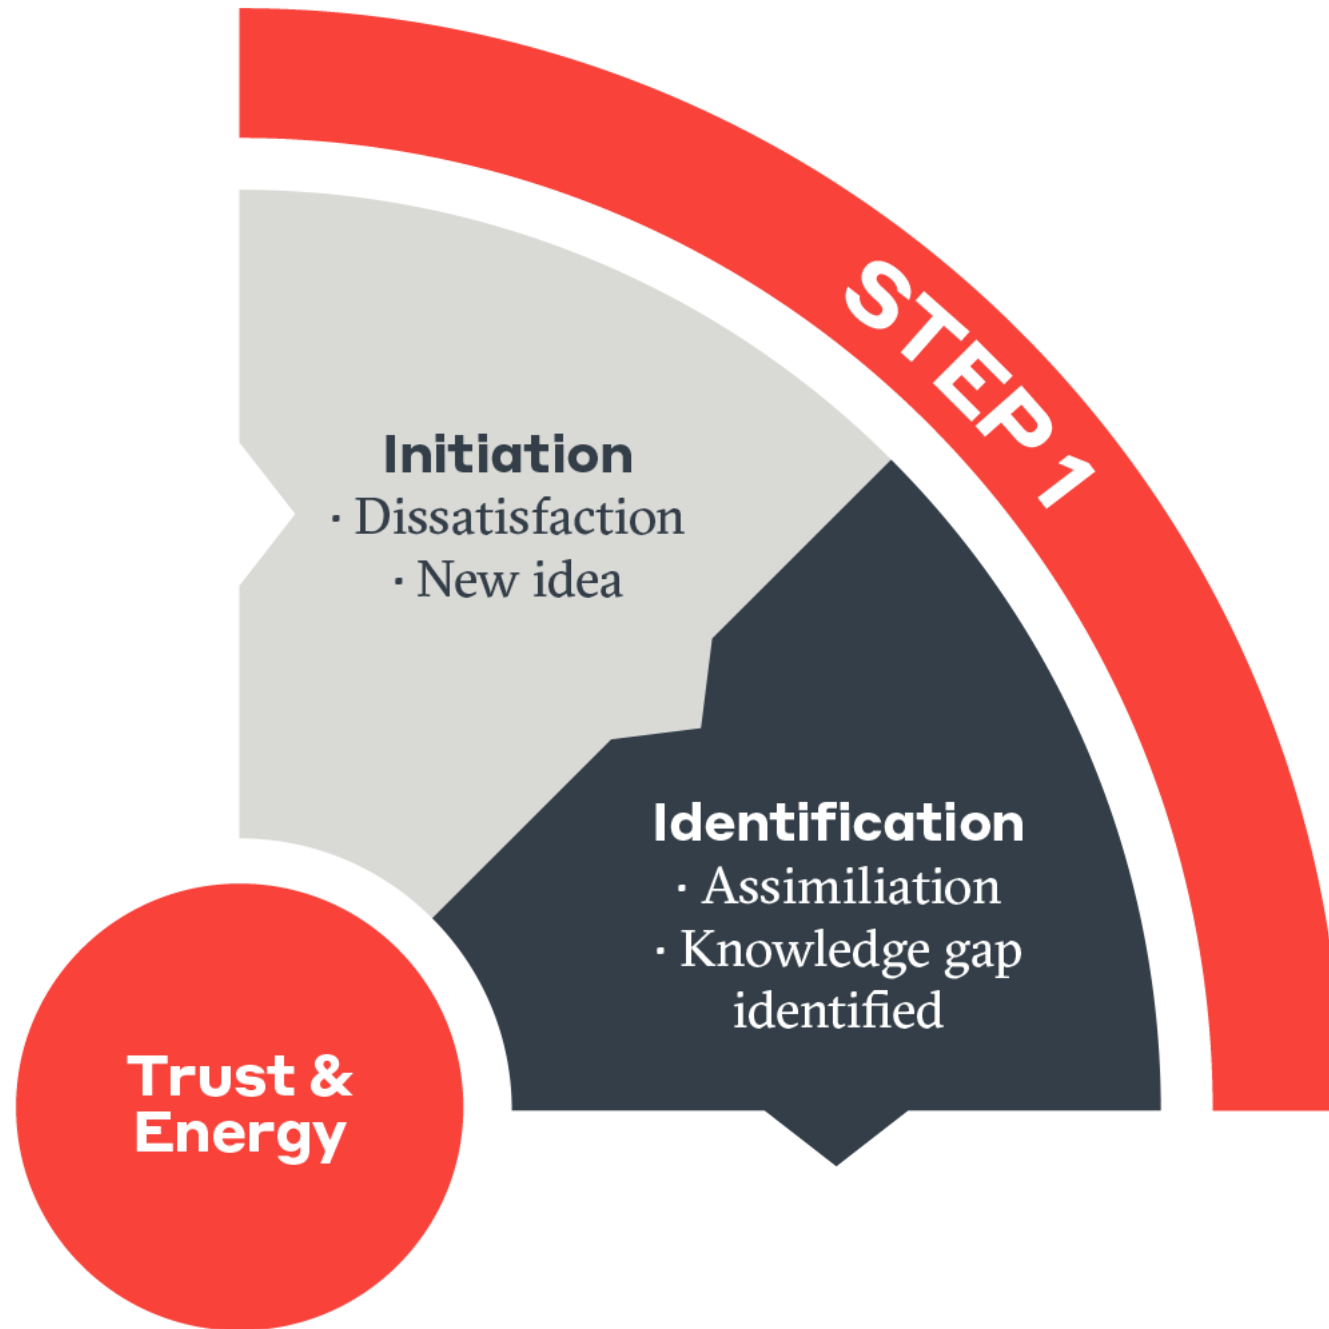

General scheme of the automatic water quality-monitoring station and the buoy containing the vertical profiler

(Bertone, 2013, p. 9 and 10, Figure 6 and 8, respectively)

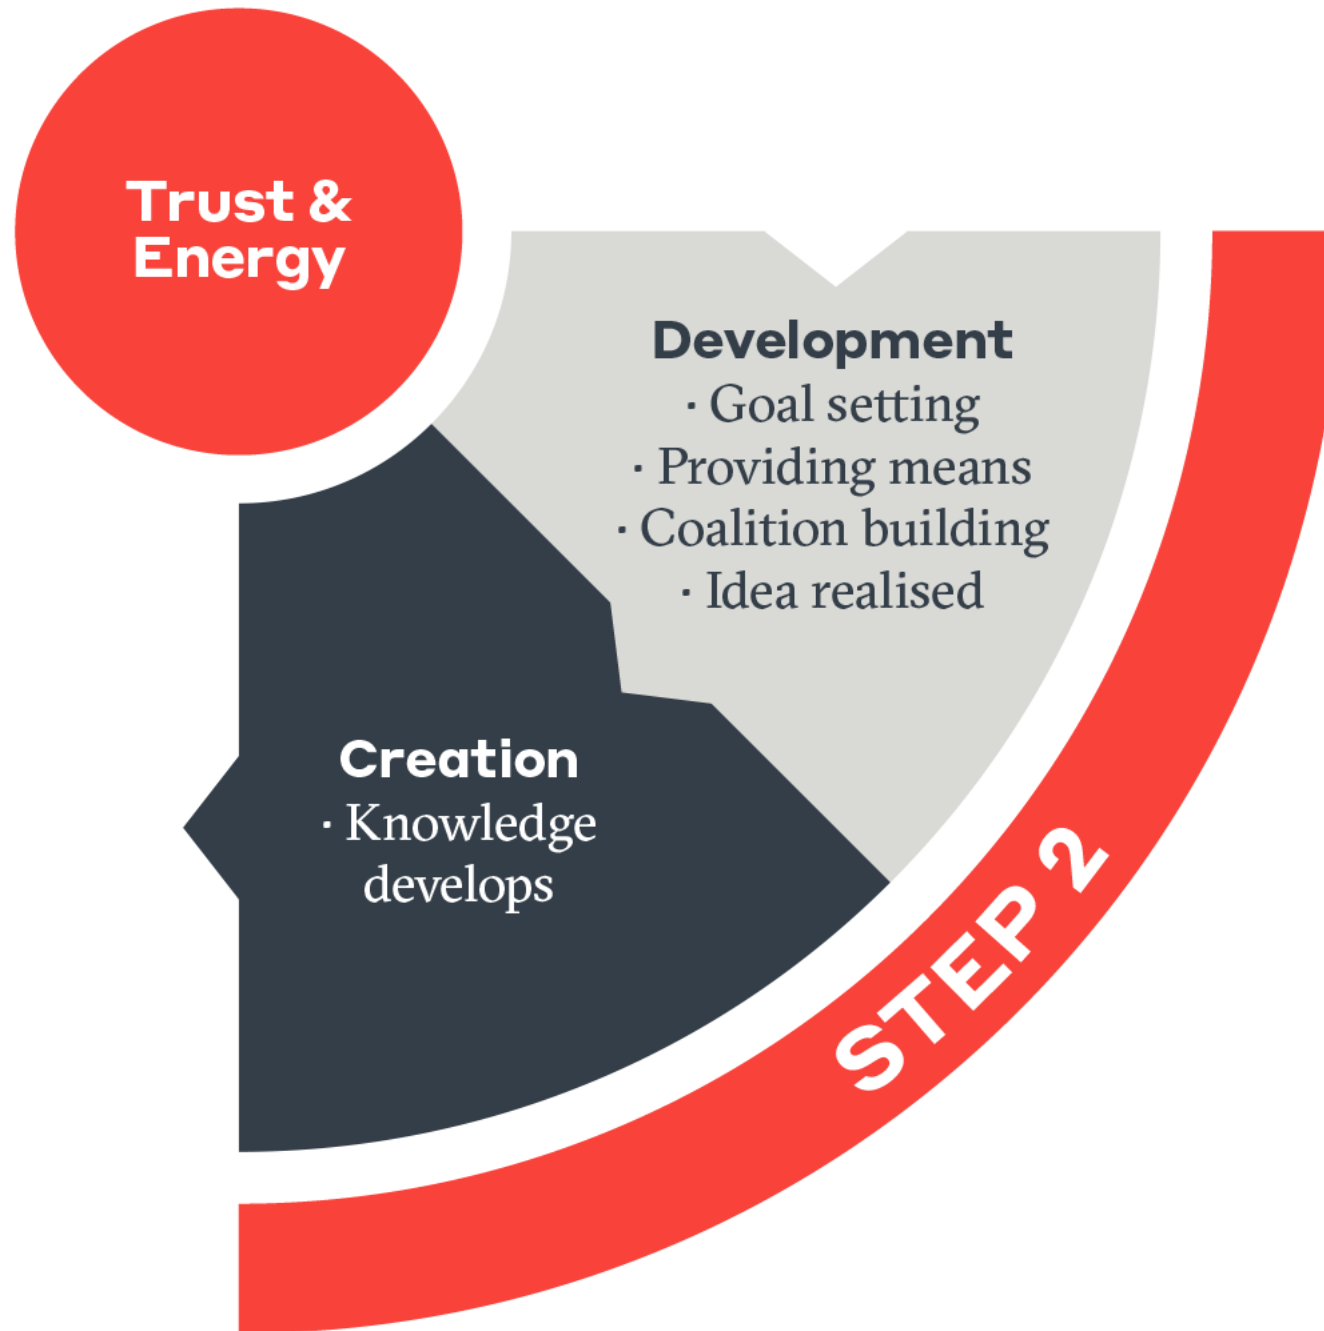

# Knowledge Innovation Framework (KIF)

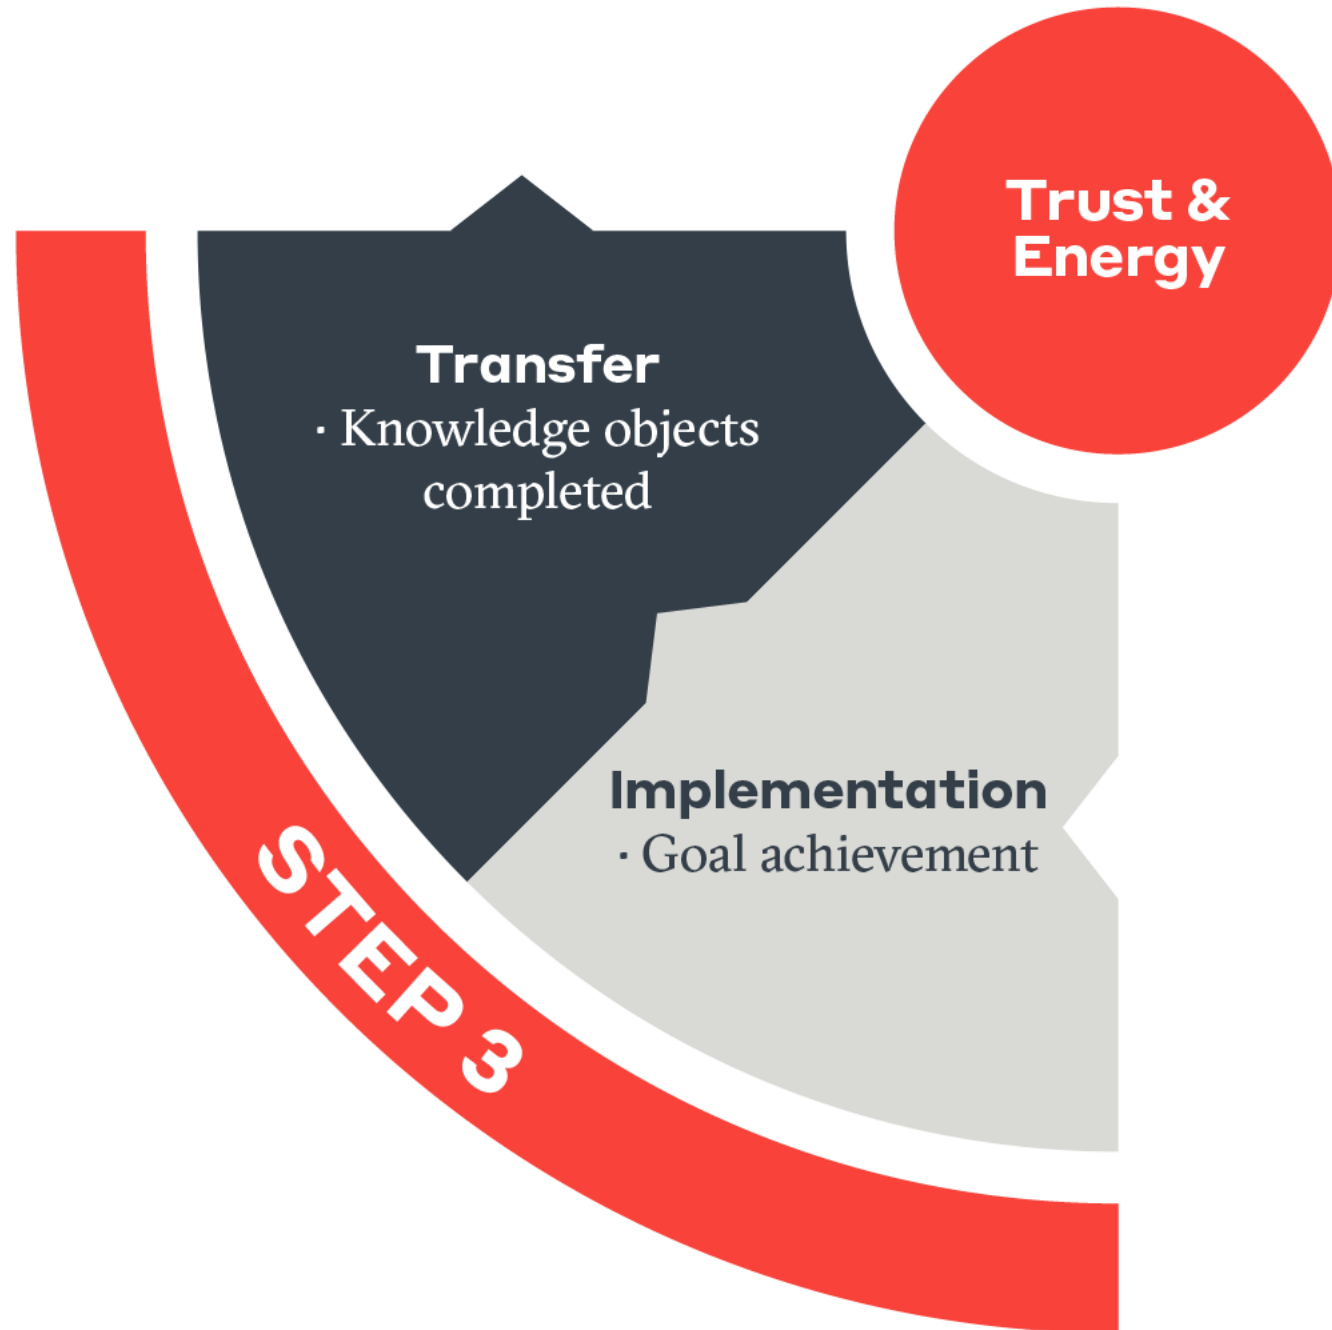

# KIF Form the idea

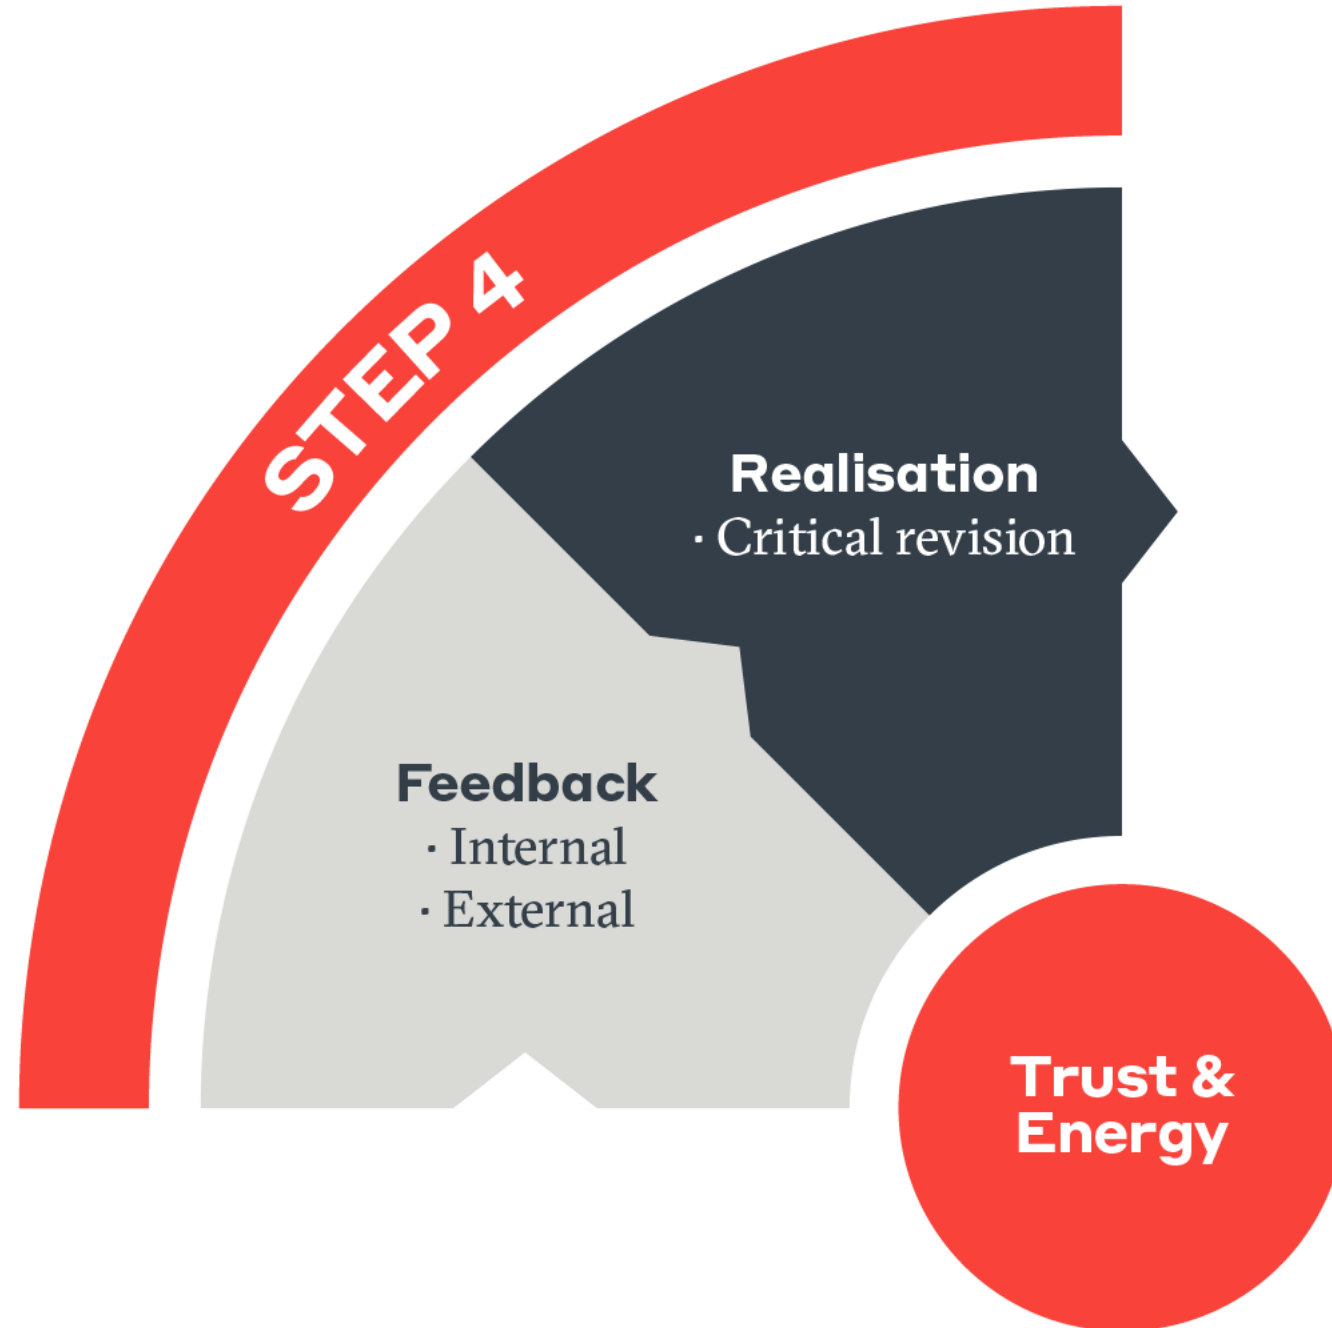

# KIF Develop the idea

# KIF Implement the solution

# KIF Feedback

# How to apply to your project

- Strategy development
- Needs Measures for managers to monitor progress

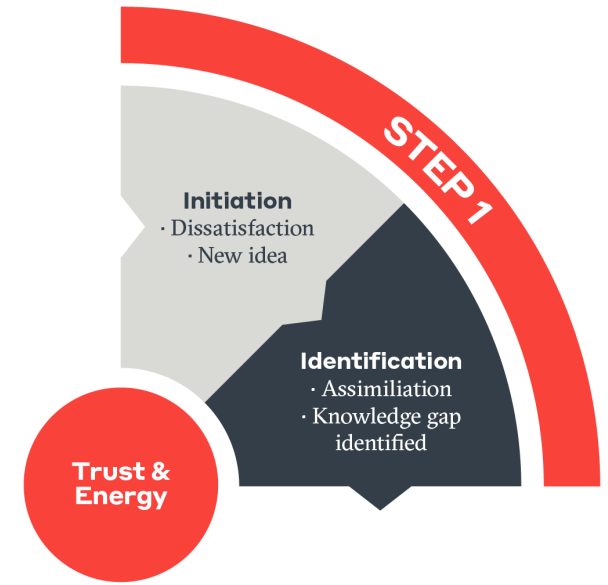

# KIF Form the Idea

## Trust Measure:

— Do you believe the 'idea' will resolve the problem?

## Energy Measure:

— How much effort should the organisation assign to this idea?  
— How supportive is my management of this 'idea'?

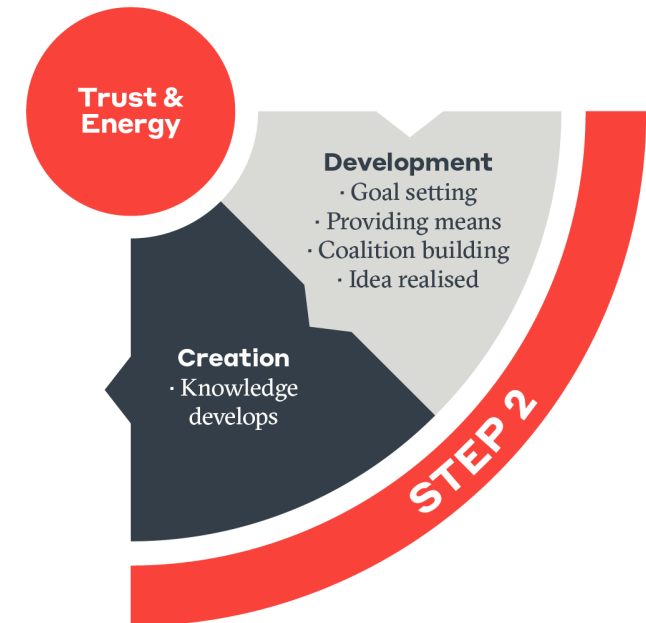

# KIF Develop the idea

## Trust Measure:

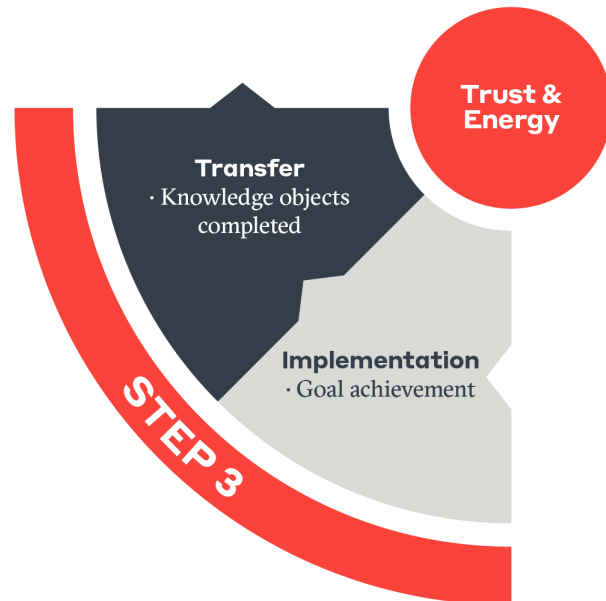

- Do we have enough support?
- Our collaborators are needed to develop this idea and they are adding value.

## Energy Measure:

- Is my management continuing to show support for this project?

# KIF Implement the solution

## Trust Measure:

— We believe this innovation will be useful for our team / for me / for my customer.

## Energy Measure:

— Monitor the level of communication about the project.

# KIF Step 4

## Trust Measure:

- My feedback has been acknowledged and acted upon.
- I am free to provide constructive feedback

## Energy Measure:

- Number of issues with or comments regarding the innovation.

# Summary

- The framework describes the process of innovation and the measures track progress
- Focus on energy and trust
- Listen and act on feedback
- **Next steps:**
  - Develop a strategy that supports this approach
  - Measure how your project is going
