OFSC Educational Webinars

The OFSC hosts educational webinars featuring presentations from industry experts and Federal Safety Officer guidance on managing on-site hazards within the requirements of the WHS Accreditation Scheme.

Traffic management is a longstanding area of concern for the industry, with ongoing Scheme compliance issues around ensuring traffic management plans are correctly implemented; regularly updated throughout the project; and are prepared by a qualified person in line with legislation, codes, standards and other requirements.

Previous webinars have covered: Mobile cranes ground conditions, lift-planning and articulation; [scaffolding risk management](#); and secondary safety systems for mobile elevated work platforms. To find out more about the [WHS Accreditation Scheme](#), [view past webinars](#) find out more about the recent Hazard 2020 safety campaign please visit www.fsc.gov.au.
